

## **3868 Carbide Triple Set® TSX** **Versatile Carbide Bandsaw** **Blade**

### PRODUCT DETAILS

- Carbide blade for high efficiency cutting of difficult and abrasive materials
- Triple-set tooth design and good kerf clearance helps eliminate tooth loss
- Set tooth design eliminates vibration and noise especially on unstable machines
- Carbide is very tough so the edges can withstand the high impact forces of bandsawing without breaking or chipping
- Selected carbide tip for wear, resistance and durability has proven to increase productivity dramatically
- Positive 10° rake angle tooth for faster cutting rates and increased productivity
- Selected carbide tip for wear, resistance and durability
- Strong set pattern for good swarf clearance and longer tool life
- Standard widths and thickness which fit all types of bandsaw machines without modification
- Perfect for cutting titanium alloys, graphite alloy, aluminium with high silicon or matrix alloys
- Provides clearance for good chip removal
- Greatly improved blade life
