

**3240**

**ERGO™ Superior™ Veneer Handsaws for Plywood and Plastic**

**PRODUCT DETAILS**

- Handsaw developed according to the scientific ERGO™ process
- Ergonomic and well-balanced product, designed to fit perfectly in the hand with superior handling and comfort when sawing
- For cutting fine and medium-thick materials such as plywood, laminates and plastics
- Unique XT-teething, hardpoint teeth for long-lasting sharpness
- Increased stability and accurate cutting from the thicker blade
- Easier cutting from the low-friction, rust-preventative coating
- Comfortable three-component handle giving an excellent grip with 45° and 90° marking guide
- Maximum comfort with minimum effort due to the ergonomic design
