

## **3881 Carbide Multi Set THQ Advanced Carbide Bandsaw Blade**

### PRODUCT DETAILS

- Multi-chip design carbide bandsaw blade for difficult to cut materials
- Multi-chip design with 6 tooth pattern and 2 set levels
- 3881 Quad grind and set pattern improves chip removal and extends blade life
- Performs extremely well cutting titanium alloys, aerospace alloys, stainless steel, high nickel chrome alloys and abrasive tool steel
- Quad grind enables cutting of scaled surfaces, tooth chamfers improve the chip removal and extend blade life
- Set tooth design eliminates vibration and noise especially on unstable machines or vertical machines
- THQ is primarily titanium and nickel alloys
- High low teething
- Wide set as standard
- Reduces tooth strippage on breakthrough
