

BBS102

T-handle wire pushing tool

PRODUCT DETAILS

- Used to push the wire through the windscreen urethane border
- This tool is inserted underneath the windscreen and below the dashboard
- The operator can choose to push the wire, such as our BBS150R, S or T, from inside the vehicle through the urethane to the outside or push the wire starter through the urethane and then hook the wire through the hole and pull it back inside
- T-handle shape for comfortable use
- Designed with a stainless steel blade
- Plastic injection moulded handle for improved grip
- Use together with wire grips BBS101
