

3520 A Rotating dismantling tool

PRODUCT DETAILS

- Dismantling tool suitable for round cables of diameters between 4.5mm and 28.5mm
- The insulation can be removed in seconds just by adjusting, twisting and pulling
- The blade can be adjusted to different insulations of up to 3mm thickness
- The blade applies pressure continuously for a perfect contact between the blade and the cable
- When applying the button, the blade rotates 90° in order to make a longitudinal cut
- Can be used for cutting at the ends or in the middle of a cable
- Includes an extracting claw
- 3520 A SH: spare blade straight
