

BBS150S Windscreen cut-out wires

PRODUCT DETAILS

- Used to cut-out wire used to cut out windscreens
- Various wire shapes available: Round and braided, square and triangular
- BBS150S: When a square wire is pulled, pressure is applied to the flat side. It then takes the path of least resistance, rolls over and cuts with the V edges of the wire
- BBS150S: Thickness: 0.6 mm
- BBS150T: triangular wire designed especially for urethane
- BBS150T thickness: 0.6 mm
- BBS150R: The braided design provides the fastest cutting action possible. Quickly slices through urethane and silicone windscreen adhesives. Each braided helix of this wire acts like a cutting saw tooth
- BBS150R. Diameter: 0.3 mm
- Length: 50 m
- Use together with wire grips BBS101
