

BWTPMSS4C Tyre Nozzle Deflation Caps

PRODUCT DETAILS

- Used to identify each wheel to avoid missing the TPMS sensor position when changing the wheel
- Time saver. Allows the user to deflate the tires without wasting so much time
- Safe. Helps to avoid damaging the sensor when deflating
- Made of anodised aluminium, colour coded and marked
- FL (front left) - Blue
- FR (front right) - Dark Grey
- RL (rear left) - Green
- RR (rear right) - Red
- Different colours makes caps easily visible on most rims or wheels
- Knurling provides a sure grip even in greasy situations
- Supplied in a plastic injection case, in foam inlay for better tool management
