

## **BH4G8** **Hydraulic Bottle Jack 8T**

### PRODUCT DETAILS

- Welded structure ensures better performance and prevents oil leakages
- Steel forged base for great wear and impact resistance
- Extension screw (N/A BH4G30 - BH4G50) allow precise height adjustment
- Serrated saddle provides a secure lifting grip
- Safety valve prevents the ram from being overextended, which would cause damage to the piston
- Suitable to work only in vertical position
- Operating conditions: -20°C to 50°C
- CE certified by Official Independent Technical Inspection Association
