

3851 Contour and small machine
Lama per sega a nastro bi-metallica
per tagli generici di metalli a
contornare per macchine piccole

BAHCO Sandflex® Cobra™ 3851

DETTAGLI PRODOTTO

- Per macchine piccole e a contornare, ideale per il taglio di vari tipi di materiali, dall'alluminio all'acciaio inossidabile.
- Ampia gamma di dentature disponibili per soddisfare molteplici esigenze come il taglio di materiali pieni, a pacchi, profilati e materiali pressofusi.
- Prestazioni di taglio eccellenti grazie alla dentatura appositamente ideata
- Lunga durata della lama grazie alla dentatura in M42
