

BAHCO Carbide Triple Set® TSS 3868

3868 Carbide Triple Set® TSS
Versatile Honed Carbide Bandsaw
Blade

PRODUCT DETAILS

- Carbide blade for high-efficiency cutting of difficult and abrasive materials when vibration is a problem
- Set tooth design eliminates vibration and noise especially on unstable machines
- Positive 10° rake angle tooth for faster cutting rates and increased productivity
- Patented ground blade design features a triple chip blade with set teeth
- Provides clearance for good chip removal
- Designed specifically for production cutting of stainless steels
- Greatly improved blade life
- Exact same blade as TSX, but TSS is a pre-run-in blade using a patented method eliminating run-in
- Triple set tooth design and good kerf clearance help eliminate tooth loss
- Edges can withstand the high impact forces of bandsawing without breaking or chipping
- Selected carbide tip for wear, resistance and durability has proven to increase productivity dramatically
- Standard widths and thickness which fit all types of bandsaw machines without modification
- Strong set pattern for good swarf clearance and longer tool life
- Reduces vibration and has extremely low noise levels
