Cabos de machado suplentes

DETALHES DO PRODUTO

- Traditional axe handles made of selected ash wood of high quality
- Professional handles made of a very resistant 3-component fibreglass material for comfort
- Each wooden spare handle is supplied with a plastic wedge for fixation of the handle in the axe-head
- Advice:
- Remove the old handle, clean out the eye of the head and fix the new handle into the eye
- Drive the plastic wedge into the handle using a hammer until it has reached the same level as the head itself
- For details see instruction card attached to each ash wood handle
