

3854-Sandflex® King Cobra™ PHX
Production Metal Cutting Bi-Metal
Bandsaw Blade for Large and
Difficult Alloys

BAHCO Sandflex® King Cobra™ PHX 3854

PRODUCT DETAILS

- Bahco bandsaw blade, the solution for high-performance cutting of large and tough workpieces.
- New improved high speed steel tooth edge provides greater hardness and toughness for longer wear resistance.
- Fatigue-resistant backing material and powder HSS tooth tips give top performance and long life in tough materials.
- Special VariEdge design provides variable rake and clearance angles to optimise each tooth's cutting properties.
- Precise set for smooth surface finish.
- Set levels produce a multi-chip cutting profile that reduces cutting force and improves blade life.
