

BAHCO Carbide Multi Set THS 3881

3881 Carbide Multi Set THS - US THS Multi Set Carbide Bandsaw Blades

PRODUCT DETAILS

- The Bahco carbide blade with multi-chip design for difficult to cut material
- Multi-chip design with 6 tooth pattern and 2 set levels, 3881 quad grind and set pattern improves chip removal, extends blade life
- Exact same blade as THQ, but THS is a pre run in blade using a patented method eliminating run in
- Reduces vibration and has extremely low noise levels, eliminating vibration in the first cut
- THS performs extremely well cutting stainless steel, high nickel chrome alloys, aerospace alloys and abrasive tool steel
- Quad grind enables cutting of scaled surfaces, tooth chamfers improve the chip removal and extend blade life
- Reduces tooth strippage on breakthrough
- Set tooth design eliminates vibration and noise especially on unstable machines or vertical machines
- THS is primarily for stainless steel
- High low teething
- Wide set as standard

PRODUCT ATTRIBUTES

Product								
3881-34-1.1-THS-2/3	34 mm	1-1/4 in			THS	2/3		
3881-41-1.3-THS-2/3	41 mm	1-1/2 in			THS	2/3		
3881-54-1.6-THS-2/3	54 mm	2 in			THS	2/3		
3881-80-1.6-THS-1/1.25	80 mm	3-1/8 in			THS	1/1.25
